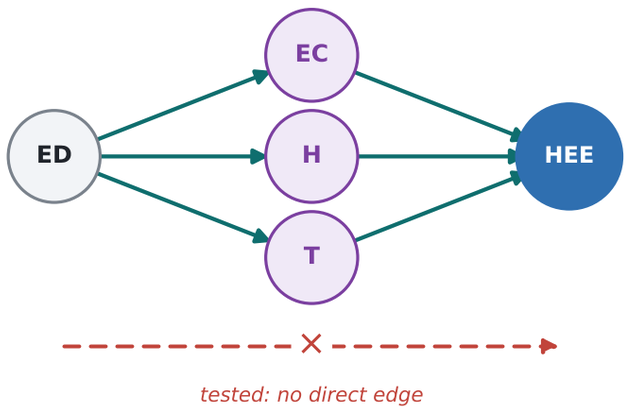
(a) One implied independence, tested



Upheld

r(ED, HEE | D, EC, U) = -0.015
95% CI [-0.026, -0.004]
n = 31,802

Not upheld

r(D, HEE | C, EC, H, U) = -0.270
95% CI [-0.280, -0.259]
n = 31,802

(b) Edge marks

mark	graph	asserts
$X \to Y$	**Expert DAG**	X is assumed a direct cause of Y
$X \to Y$	**PC (CPDAG)**	oriented in every DAG consistent with the tests
$X - Y$	**PC (CPDAG)**	adjacent; orientation not determined
$X \leftrightarrow Y$	**FCI (PAG)**	unmeasured common cause
$X \circ\!\!\to Y$	**FCI (PAG)**	endpoint at X undetermined
